Race For Mayor Tightens Numbers Now Mirror July Primary

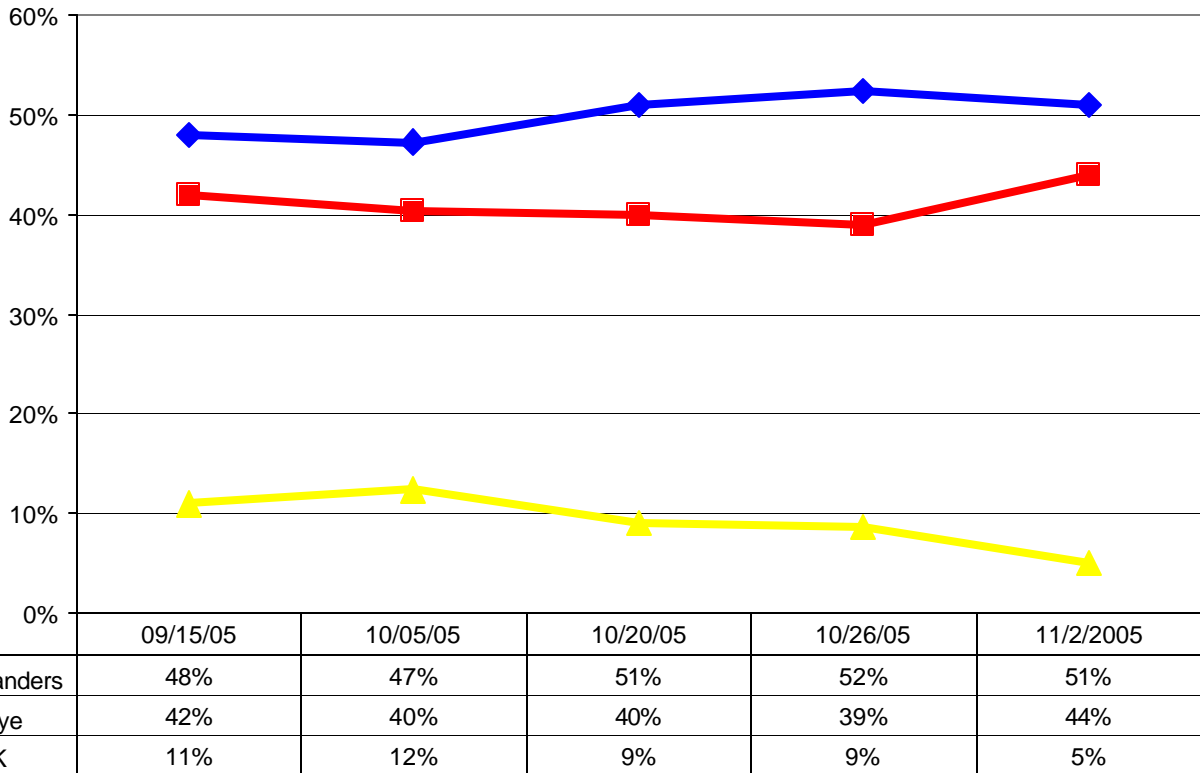

San Diego – In a poll released today by Datamar Inc., Donna Frye at 44% is closing in on Jerry Sanders’ 51% lead in the race for San Diego mayor. Among *City of San Diego high-propensity registered voters*, Sanders’ lead has decreased from his last week’s 13-point advantage. This non-partisan race remains sharply divided among political parties. Frye leads among Democrats, 71%, to 24% for Sanders. Frye moved up 6 points with Democrats from our survey of October 26, 2005. Of those that stated they were extremely likely to vote, Sanders leads 52% to Frye’s 44%.

Sanders’ lead among Republicans is 83%, to 14% for Frye. Frye picked up 4 points with Republicans since our last survey. Sanders lost 1 point. Sanders leads with males 49% and with females 53%, while Frye garners support from 47% of males and 41% of females.

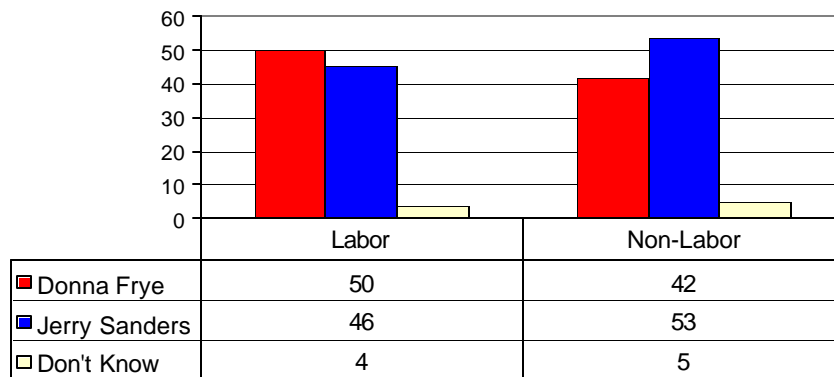

Sanders' lead decreased from our last poll a week ago, from a 13-point lead to a 7-point lead.

Mayor's Race

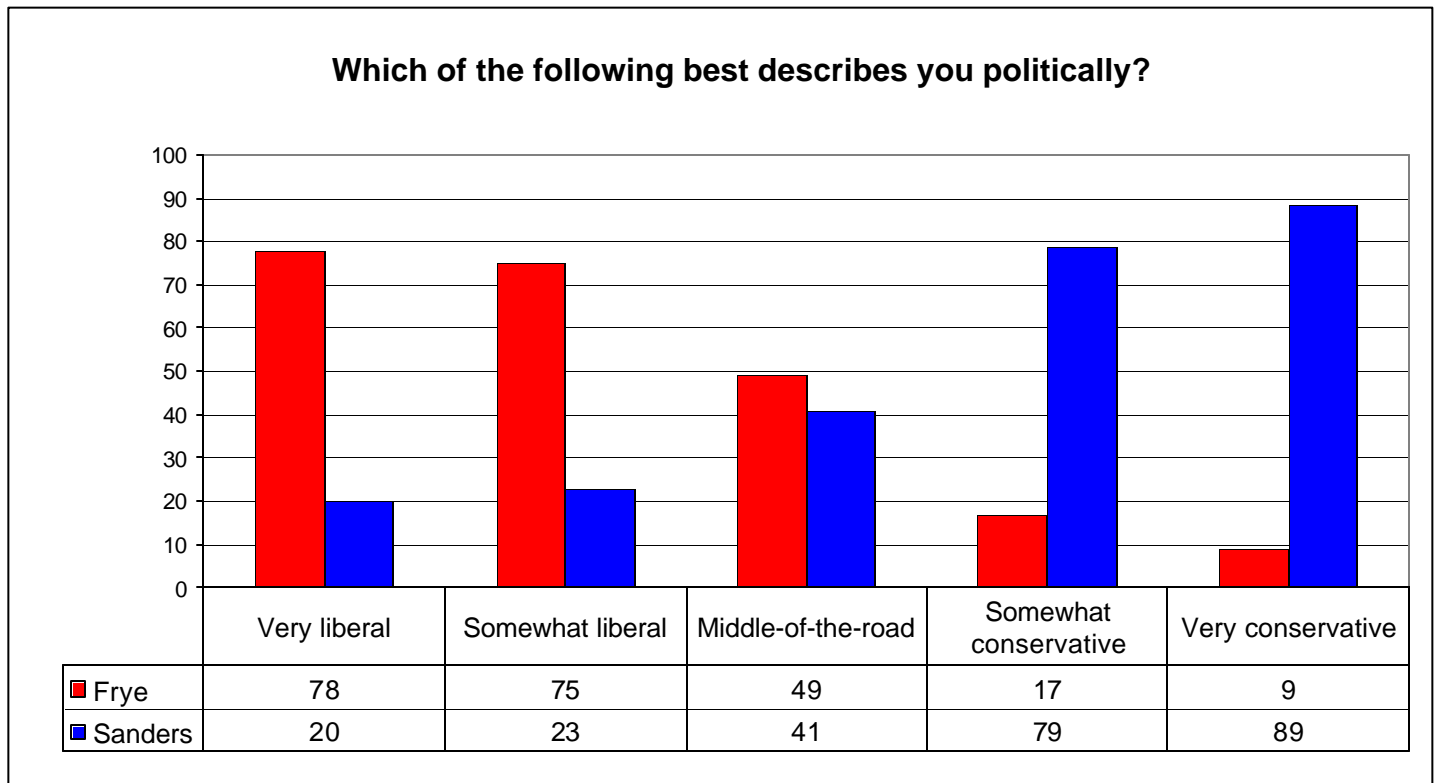

Among labor union households, Sanders with 46% has narrowed the gap, with Frye at 50%. Among non-labor union households Sanders leads 53% to 42% for Frye.

Labor & Non-Labor Voters

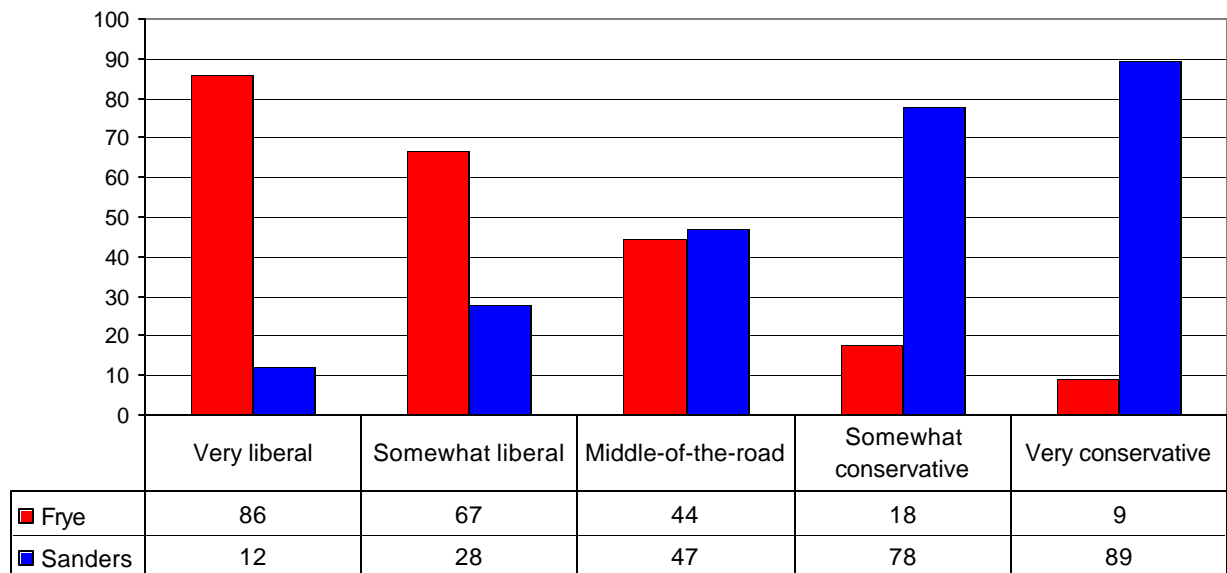

On political ideology, Frye still leads among the very liberal, with 78% to Sanders' 20%. Sanders continues his larger lead among the very conservative, 89% to Frye's 9%.

Political Ideology		5-Oct	20-Oct	26-Oct	2-Nov
Very Liberal	Donna Frye	82	81	81	78
	Jerry Sanders	14	15	12	20
Somewhat Liberal	Donna Frye	69	67	68	75
	Jerry Sanders	20	26	25	23
Middle of the Road	Donna Frye	41	35	41	49
	Jerry Sanders	45	50	47	41
Somewhat Conservative	Donna Frye	10	19	13	17
	Jerry Sanders	75	73	80	79
Very Conservative	Donna Frye	9	4	4	9
	Jerry Sanders	82	90	92	89

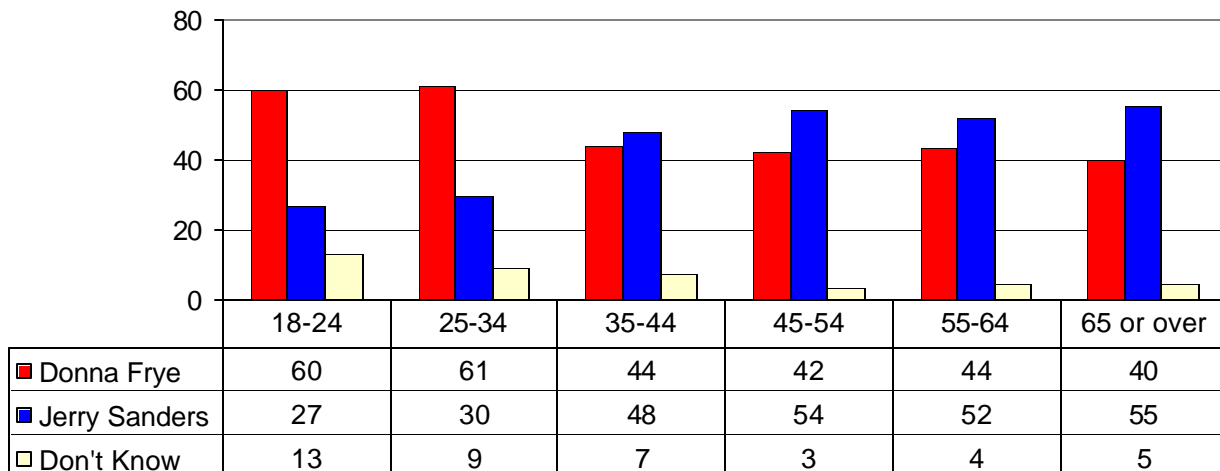

Which of the following best describes you on social issues?

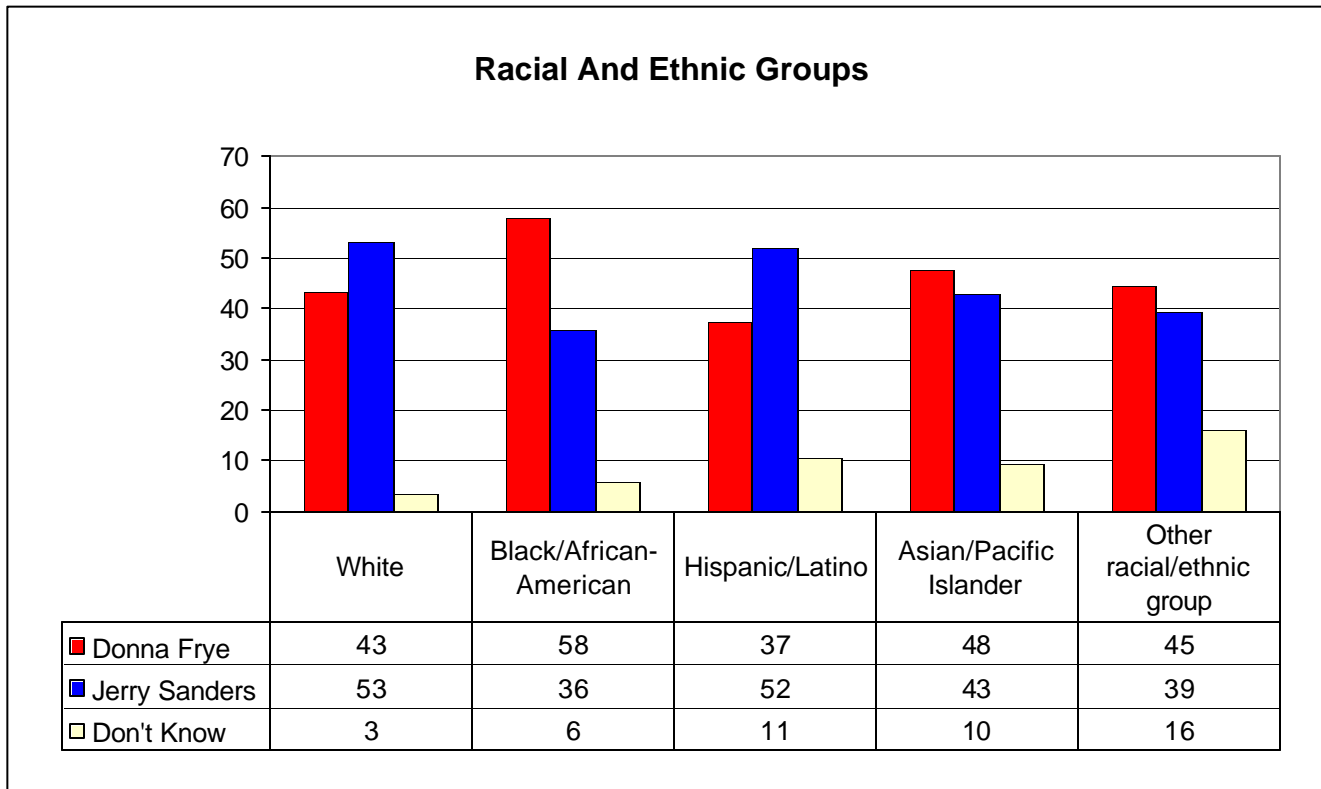

On social issues, both Sanders and Frye have remained solid with their respective bases. Sanders receives support from 89% of social conservatives while Frye receives 86% from social liberals. The middle-of-the-road group leans towards Sanders 44% to 47%. However, this is a striking difference from our last survey, which had Sanders leading in this group 54% to 35%.

Frye leads with two age groups -- 18-24 year-olds (60%) and 25-34 year-olds (61%). With all other age groups Sanders is in the lead.

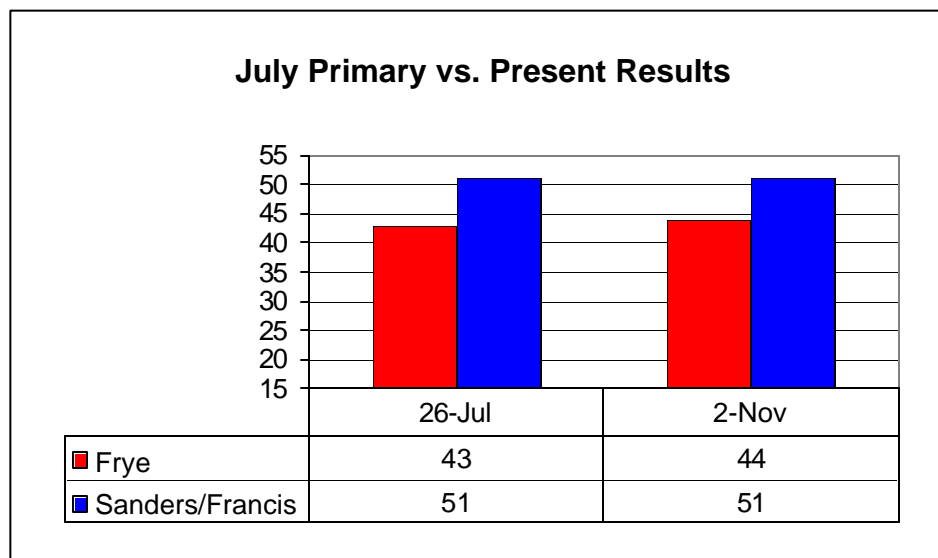

Age Ranges

White voters support Sanders 53% to 43% for Frye. Latinos are supporting Sanders 52% to Frye's 37%. African-Americans support Frye 58% to 36% for Sanders. Sanders' 36% among African-Americans is extremely high for a Republican candidate.

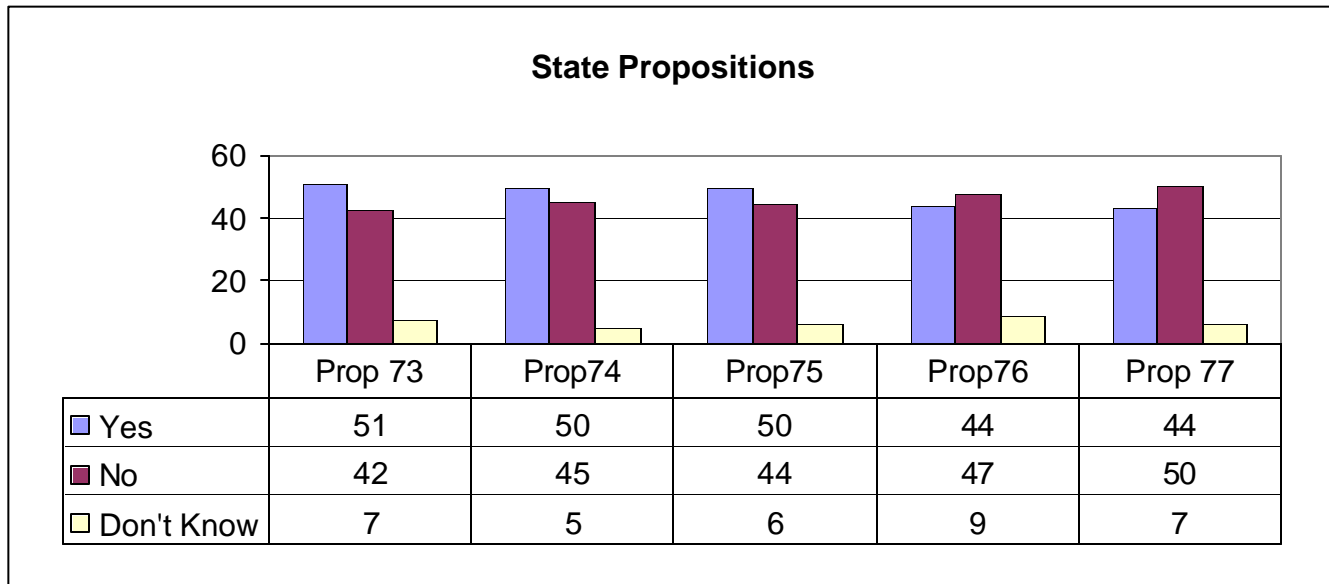

In the July 26, 2005 primary, Frye received 43% of the vote and Sanders combined with Steve Francis bore 51%. Remarkably, three months later with over a million dollars in campaigns expenditures, what has changed? Almost Nothing. Frye has 44% instead of 43%. Sanders now has 51%, exactly the same as the July primary Sanders/Francis total.

Among City of San Diego high-propensity registered voters, Proposition 73 (the “Waiting Period and Parental Notification Before Termination of Minor’s Pregnancy” initiative) leads 51% to 42% with 7% undecided.

Proposition 74, the “Public School Teachers Waiting Period for Permanent Status Dismissal” initiative, is leading 50% to 45% with 5% undecided.

Proposition 75, the “Public Employee Union Dues Restrictions on Political Contributions. Employee Consent Requirement” initiative is leading 50% to 44% with 6% undecided.

Proposition 76, the “State Spending and School Funding Limits” initiative, is behind 44% to 47% with 9% undecided.

Proposition 77, the “Redistricting Initiative”, is behind 50% to 44% with 7% undecided.

About the Survey

The Survey is a project of Datamar, Inc. Datamar, Inc. offers online tools for political candidates and committees that help organize the basic information for a successful campaign including: Surveys, Voter Contact Information, Voter Demographic Information, Legislative Races and Proposition Results. Datamar, also provides voter contact and GOTV phone services.

Findings are based on a telephone survey of 1,029 San Diego high-propensity registered voters. Registered voters polled are those who voted in the 2004 primary and general elections. These voters were interviewed on November 1st and 2nd, 2005. Interviews took place using a proprietary algorithm to generate a random sample of voters. The sampling error for the total sample is +/- 3.1 percent at the 95 percent confidence level. The sampling error for subgroups is larger.

Surveys are available from our website at: www.datamar.com
