About the Survey

The Survey is a project of Datamar, Inc. Datamar, Inc. offers online tools for political candidates and committees that help organize the basic information for a successful campaign including: Surveys, Voter Contact Information, Voter Demographic Information, Legislative Races and Proposition Results.

Findings are based on a telephone survey of 402 San Diego City Council District 2 high-propensity registered voters. Registered voters polled are those who voted in the 2004 primary and general elections. These voters were interviewed on September 19 through September 21, 2005. Interviews took place using a computer-generated random sample of registered voters. The sampling error for the total sample is +/-4.8 percent at the 95 percent confidence level. The sampling error for subgroups is larger.
